**Would you like to be more effective as a parent?
Would you like to have more fun and confidence as a parent?**

The Love and Logic Process....

Love allows children to grow through their mistakes.

Logic allows children to learn from the consequences of their choices.

What is Love and Logic All About?

The Love and Logic Institute is dedicated to making parenting and teaching fun and rewarding, instead of stressful and chaotic. We provide practical tools and techniques that help adults achieve respectful, healthy relationships with their children and help them prepare their kids for the real world

Why Does It Work?

- * Uses *humor, hope, and empathy* to build up the adult-child relationship
- * Emphasizes *respect and dignity* both for children and adults
- * Provides *real limits* in a loving way
- * Teaches *consequences and healthy decision-making*
